Since I was in High Secondary School, I have believed that Pharmacy is an important factor in a life. All human activities in several fields such as industrial pharmacy , clinical pharmacy , patient cure with good drug , help of patient with chronic diseases as cancer , diabetic and Alzheimer diseases ,...

This circumstance stimulated me to attend faculty of pharmacy .I choose in my study in master (**Nanomedicin and pharmaceutical biotechnology**) as my specialization even though at this time. I saw in several developed countries such as USA ,Sweden ,Germany, Netherlands ,the manufacture of biomedical drugs not only have many opportunities but also were cited as important scholar in their societies .

As a student at biotechnology Department Faculty of Science of Mohammed V University, I had numerous opportunities to do many activities. From 2009 to 2011 I had chances to participate in many workshops relationship in biotechnology section as « **Bioinformatics, Synthesis of new product from plant medicinal , Analysis of cytometry in flux, Genetic medical, Synthesis of biomedical and protein engineering** » .

Presently, I work as a teacher in Pharmaceutical biotechnology in Al-Razi college for Medical Science , My responsibilities are teaching, conducting research individually or in a team and etc , So I have to continue my study to enrich my skills and broaden my knowledge.

I consider myself to be a good candidate for have Scholarship because I am young, energetic, hardworking, visionary, and motivated person who believes that I can do something for the benefit of my country to whom I have been working.
